SECTION 4: FIRST AID MEASURES

Description of first aid measures

General advice	In case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.
If Inhaled	Exposure to mist/sprays may cause irritation of the respiratory tract. If inhaled, remove to fresh air. If respiratory symptoms develop, seek medical attention.
In case of skin contact	In case of contact, immediately flush skin with soap and plenty of water. Remove contaminated clothing and shoes. Direct contact may cause mild skin irritation. Skin sensitization reactions are possible. Prolonged/Repeated contact may result in skin irritation and dermatitis. Wash clothing before reuse. Thoroughly clean shoes before reuse.
In case of eye contact	Immediately flush eyes with water for fifteen (15) minutes. Corneal injury is unlikely. Seek prompt medical attention.
If swallowed	Not anticipated to be an exposure route. If ingested, irritation of the gastrointestinal tract occur. Signes of central nervous system, depression (headache, fatigue, drowsiness, and loss of coordination) may occur.
Most important symptoms And effects, both acute and delayed	May cause an allergic skin reaction. Suspected of damaging fertility or the unborn child.
Protection of first-aiders	First Aid should pay attention to self-protection, and use the recommended personal protective equipment when the potential for exposure exist.

SECTION 5: FIRE-FIGHTING MEASURES

Extinguishing Media

-Suitable Extinguishing Media

Water fog
Foam
Dry chemical
Carbon dioxide

Hazardous combustion products:

Carbon monoxide
Carbon Dioxide
Incomplete combustion products

Flashpoint :

> 200° F

**Special protective equipment for
Fire fighters**

Use personal protective equipment with self-contained breathing apparatus.

SECTION 6: ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective
Equipment and emergency Procedures:**

Evacuate hazard area of unauthorized personnel.
Use personal protective equipment
Follow safe handling advice and personal protective equipment recommendations.

Environment precautions:

Prevent further leakage or spillage if safe to do so.
Prevent spreading over a wide area (e.g. by containment or oil barriers) Dike/Contain.

**Methods and materials for containment
And cleaning up:**

Avoid direct contact.
Soak up with inert absorbent material.
For large spills, provide diking or other appropriate containment to keep material from spreading. If diked apply absorbent and place cleanup material in sealed/marked containers for proper disposal.
Clean up remaining materials from spill suitable absorbent.

SECTION 7: HANDLING AND STORAGE

Advice on safe handling:

Avoid direct contact.
Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage:

Keep in properly labeled containers.
Keep containers closed when not in use.

Engineering measures

None required under normal use conditions.

Personal protection measures	
<p>Eye / Face Protection</p> 	<p>Splash goggles or safety glasses with side-shields.</p>
<p>Skin and body protection</p> 	<p>Select appropriate protective clothing. Choose gloves to protect hands against chemical depending on the concentration specific to place of work. Breakthrough time is not determined for the product. Wash hands before breaks and at the end of the workday.</p>
<p>Respiratory Protection</p> 	<p>General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits are unknown, appropriate respiratory protection should be worn. Follow OSHA Respirator regulations (29 CFR 1910.134) and use NIOSH / MSHA approved respirators. Protection provided by air purifying respirators against exposure of any hazardous chemical is limited. Use a positive air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.</p>
<p>Hygiene Measures</p>	<p>Ensure that eye flushing systems and safety showers are located close to the working place. When using, do not eat, drink or smoke. Wash contaminated clothing before re-use.</p>
